This edition of Science and Creationism summarizes key aspects of several of the most important lines of evidence supporting evolution. It describes some of the positions taken by advocates of creation science and presents an analysis of these claims. This document lays out for a broader audience the case against presenting religious concepts in science classes. The document covers the origin of the universe, Earth, and life; evidence supporting biological evolution; and human evolution. (Contains 31 references.) (CCM)

Educators and policy makers in the United States have relied on tests to measure educational progress for more than 150 years, and have used the results for many purposes. They have tried minimum competency testing; portfolios; multiple-choice items, brief and extended constructed-response items; and more. They have contended with concerns about student

privacy, test content, and equity--and they have responded to calls for tests to answer many kinds of questions about public education and literacy, international comparisons, accountability, and even property values. State assessment data have been cited as evidence for claims about many achievements of public education, and the tests have also been blamed for significant failings. States are now considering whether to adopt the "common core" academic standards, and are also competing for federal dollars from the Department of Education's Race to the Top initiative. Both of these activities are intended to help make educational standards clearer and more concise and to set higher standards for students. As standards come under new scrutiny, so, too, do the assessments that measure their results. This book summarizes two workshops convened to collect information and perspectives on assessment in order to help state officials and others as they review current assessment practices and consider improvements.

Explore the government of the United States from its beginning to the present with special emphasis on the Biblical pattern for government and on the U.S. Constitution. Learn about the operations of Federal, state, and local government, and about issues facing our nation today. Become better equipped to understand, pray for, and be involved in our country's government. Includes guide for parents.

The Number One course for 11-14 year-olds has now been fully revised for the new science curriculum.
