Leader: You who jump with ropes. Group: Ropes, ropes, ropes, ropes, ropes, ropes, freeze! The leader then cues the next movement and the process repeats itself. If a person loses composure or breaks the freeze before the leader calls "Yoo-Hoo" again, that person is out. The last person remaining is the winner.

Theater and Improv Games for the Classroom and Beyond

The group sits or stands around the acting space. Two people enter the space and begin to improvise a scene, with dialogue and as much physical action as possible. At any moment, anyone else in the group may shout, "FREEZE!" The actors freeze instantly and exactly. The person who stopped the scene taps one of the actors on the shoulder.

Allows actors to put theories and concepts together with practical exercises which can help in developing creative performances.

ACTING FOR FILM AND TV. By Leslie Abbott. Who at some point in their lives has not dreamt of being a film or TV star? Most of us put away these dreams and pursue more mundane careers; this book is for those who hold on to the dream that they will have a career in films and or television. ACTING FOR FILMS AND TV starts with the very basics of the differences between acting on stage and for the camera; it proceeds to discuss the attributes of a good actor, and advances to the relationship between the actor and director. A significant part of the ACTING FOR FILM AND TV is the portion of the book devoted to the business side of the profession! "Seeking and finding work is a real part of the job," says Les Abbott, adding that "nothing in their training prepares them for the reality of working as an actor." Thus, two chapters, "The Business of The Business" and "Merchandising Your Talent" deal with issues that can make it easier for students to launch a viable career once they have left the world of academia. Other chapters, such as "Stardom" and "Attributes of A Good Actor" address subjects not likely to be found in acting textbooks! For classes, the book is enriched by scenes, mostly from original screenplays (so that the actor does not have a guideline of another actor's guideline to use in a role) -- these are scenes, that for the most part can be easily shot on a campus locale. From movie-tv jargon and preparing for a role on camera to dealing with stardom. Issues, ideas, and support from Leslie Abbott. ISBN: 0-89863-165-3 Star Publishing Company, P.O. Box 68, Belmont, CA 94002. (See also ACTIVE ACTING: EXERCISES AND IMPROVISATIONS LEADING TO PERFORMANCE. ISBN: 0-89863-114-9) tar Publishing Company, P.O. Box 68, Belmont, CA 94002. To support a new generation of actors/acting teachers by coupling fresh ideas and new approaches with the best proven methods and practices. On Acting is written primarily for the contemporary American actor. It strives to address the acting process with an eye toward the performance culture and requirements that exist today. It is a book for the new twenty-first century artist—the serious practical artist who seeks to pursue a career that is both fulfilling and viable. The text features a balance of philosophy, practical advice, anecdotal evidence/experiences and a wide variety of acting exercises/activities. Also included is the short Steven Breese play "Run, Run, Run Away" and an example of a scene score from that play.

Progress in computer animation has gained such a speed that, before long, computer-generated human faces and figures on screen will be indistinguishable from those of real humans. The potential both for scripted films and real-time interaction with users is enormous. However, in order to cope with this potential, these faces and figures must be guided by autonomous personality agents. This carefully arranged volume presents the state of the art in research and development in making synthetic actors more autonomous. The papers describe the different approaches and solutions developed by computer animation specialists, computer scientists, experts in AI, psychologists and philosophers, from leading laboratories world-wide. Finally, a bibliography comprising more than 200 entries enable further study.

Creating innovative products and game-changing processes, and adapting to new cultures and communication styles, have all become imperative for business survival. Today ' s business leaders, from Fortune 500 companies on down, have discovered the value of improvisational theatre techniques to develop creativity and collaboration skills they need. Since publication of its seminal first edition, the principles and techniques pioneered in Training to Imagine have been widely adopted by organizations around the world, and have given rise to the field of Applied Improvisation. This new edition builds on the characteristics that made it the most comprehensive and most easy-to-apply resource for using improv in organizations. As before, this book translates the theories and exercises of improv into language that is familiar to business culture, and provides guidelines, case studies and exercises intended for use by individuals for self-development, for small groups, and for facilitation by corporate trainers. This revised edition places more emphasis on the development of leadership, in particular adding activities designed for individuals to develop skills on their own, or outside formal training environments. It builds upon what has been learned since 2001, presenting examples of practice, and research on the methods, that have proven to be most effective in the workplace. Kat Koppett has added a whole new section on instructional design to help users make informed choices in selecting activities to best support their objectives and corporate context, as well as numerous new exercises. This is a vital resource for trainers, executives, and leaders at all levels who want to increase their personal communication and creativity skills, and in inspire and motivate their teams. The enhanced e-book edition will incorporate video of sample activities and exercises, as well as interviews with leading Applied Improv practitioners. This material will also be available free on the Stylus Web site.

You can hit, you can field, but can you make them laugh? Working from interviews and questionnaires, Bradshaw (theater, Gonzaga U.) also uses his personal experience with a ComedySportz team in describing the intensive preparation necessary to get players ready for competitive improv comedy. He describes the history of the art form, the workshops conducted to help players develop the timing of trapeze artists and the hides of rhinos, and the fine points of a sport that favors explosive mind games over protective headgear, however handy the latter may be. He includes a list of teams in the Comedy League of America, the games played in ComedySportz, and a sample questionnaire. We were amused. The text is double-spaced. Annotation : 2004 Book News, Inc., Portland, OR (booknews.com).

Improvisation in Drama was the first book to offer a unified view of work central to most drama training. This new edition features new practical examples and includes extended assessments of various practitioners as well as further coverage of women practitioners, non-western theatre, 'long form' improvisation and live-action role play

This collection of Applied Improvisation stories and strategies draws back the curtain on an exciting, innovative, growing field of practice and research that is changing the way people lead, create, and collaborate. Applied Improvisation is the umbrella term widely used to denote the application of improvised theatre's theories, tenets, games, techniques, and exercises beyond conventional theatre spaces, to foster the growth and/or development of flexible structures, new mindsets, and a range of inter and intra-personal skills required in today's volatile and uncertain world. This edited collection offers one of the first surveys of the range of practice, featuring 12 in-depth case studies by leading Applied Improvisation practitioners and a foreword by Phelim McDermott and Lee Simpson. The contributors in this anthology are professional Applied Improvisation facilitators working in sectors as diverse as business, social science, theatre, education, law, and government. All have experienced the power of improvisation, have a driving need to share those experiences, and are united in the belief that improvisation can positively transform just about all human activity. Each contributor describes their practice, integrates feedback from clients, and includes a workbook component outlining some of the exercises used in their case study to give facilitators and students a model for their own application. This book will serve as a valuable resource for both experienced and new Applied Improvisation facilitators seeking to develop leaders and to build resilient communities, innovative teams, and vibrant organizations. For theatre practitioners, educators, and students, it opens up a new realm of practice and work.

A collection of short, one-act plays written for one to three actors.

This latest volume in a series of short play anthologies compiled by Deb and Norman Bert provides roles for almost any mix of students in an acting class. The plays range in mood from serious and heavy to dark or satiric comedy to farce. The heart of the book includes fifteen scripts for two actors. Also included are five monologues and five three-character plays. The playwrights are icons of the American avante garde, writers who have contributed much to regional theatre over recent years. An excellent resource for classrooms and festival competition use.
