Pompeu Fabra (1868-1948) is renowned as the person who reformed and codified modern Catalan, giving it the condition of a normativised language of culture that proved fit to meet all the challenges of the twentieth century. The context in which he worked was defined by the ideology and momentum of a dynamic Catalan nationalism emerging out of the nineteenth-century cultural revival movement, energies which have continued to affect politics in the Spanish state through to the present. The imposing corpus of Fabra's writings – newspaper articles, lectures and papers, various grammars and the redaction of the official dictionary of Catalan – covered all aspects of the normativisation and the social normalisation of a rejuvenated national language. His work was, moreover, abreast of the most advanced developments in the newly emerging discipline of modern linguistics. The present volume was conceived in response to expressions of disappointment that the figure and the intellectual contributions of Pompeu Fabra have remained virtually unrecognised internationally. Some rectification of this situation is offered by this first ever translation into English of a representative selection of his writings, accompanied by the first substantial study on him in that language. In this way his work should be made much more accessible to the international community of linguists and of specialists in various branches of the social sciences, for whom Fabra's exclusive dedication to Catalan retains great relevance.

This manual is intended to fill a gap in the area of Romance studies. There is no introduction available so far that broadly covers the field of Catalan linguistics, neither in Catalan nor in any other language. The work deals with the language spoken in Catalonia and Andorra, the Balearic Islands, the region of Valencia, Northern Catalonia and the town of l'Alguer in Sardinia. Besides introducing the ideologies of language and nation and the history of Catalan linguistics, the manual is divided into separate parts embracing the description – grammar, lexicon, variation and varieties – and the history of the language since the early medieval period to the present day. It also covers its current social and political situation in the new local and global contexts. The main emphasis is placed on modern Catalan. The manual is designed as a companion for students of Catalan, while also introducing specialists of other languages into this field, in particular scholars
