Catching the Bad Guy (Book Two of Janet Maple Romantic Suspense Series) Janet Maple and Dennis Walker make a good team: she is a top-notch white collar crime investigator, and so is he. Both Janet and Dennis are thrown in for a loop when Janet's treacherous snake of an ex-boyfriend, Alex Kingsley, is appointed as their new boss, and the

case that was supposed to be the highlight of their careers is dismissed for lack of evidence. To make matters worse, Alex is asking Janet to get back together, and the one man she wishes would ask her out sees her as nothing more than a coworker. Janet's love life soon becomes the least of her worries, as she begins to suspect that Alex's rekindled interest in her is driven by ulterior motives. She is determined to get to the bottom of things, but she can't do it alone. Together, Janet and Dennis team up to solve a tangled white collar crime web that leads to powerful politicians and corporate executives. Armed with their keen instincts and skills, Janet and Dennis are bound to succeed. There is just one glitch: both are attracted to each other, and both refuse to admit it. Will Janet and Dennis solve the biggest case of their careers or will their attraction to each other get in the way? *Catching the Bad Guy is book two of the Janet Maple Series, but it can easily be read on its own.*

Just before her 40th birthday, Gail Francis quit her perfectly good job and set out to hike one of the great trails of the world. Carrying everything she needed on her back, Francis spent five months walking from Mexico to Canada along the Pacific Crest Trail. Along the way,

she lost her pack scrambling over scree in the desert, struggled to navigate high mountain passes, and wore the soles off her boots trekking across lava fields -- all within some of the most pristine wilderness in the nation. Though she set out alone, her story includes an eclectic cast of characters. From the man walking the entire 2,700 miles in a series of twenty-six wedding dresses, to the woman making the journey in the company of her pet mouse, Francis learned to count on her fellow hikers for entertainment as well as a few important life lessons.

My eyes lifted to the horizon and the unmistakable snowy outline of Everest. Everest, the mountain of my childhood dreams. A mountain that has haunted me my whole life. A mountain I have seen hundreds of times in photographs and films but never in real life.

Documentary literature became an international phenomenon on the cultural and political scene in the 1960s and 1970s. From the American New Journalism in works by such writers as Norman Mailer and Tom Wolfe to the German Industriereportagen by Günther Wallraff and others, documentarism presented a variety of controversial interplays between facts and fiction labeled as 'faction,' 'fables of fact' or the like. Scandinavian literature made important and unique contributions to this international movement, and Documentarism in Scandinavian Literature is the first comprehensive volume ever published on the historical significance and future implications of these Nordic dimensions of documentarism and their international context. The volume is centered on Swedish documentary literature in the 1960s and 1970s – and on such major writers as Per Olov Enquist, Sven Lindqvist, Sara Lidman, and Per Olov Sundman – but the powerful voices of Danish writer Thorkild Hansen and Norwegian novelist Dag Solstad are also heard in its critical concert. The diversity of Documentarism in Scandinavian Literature is further enhanced by surveys and analyses of the historical background for more recent works and activities, and by theoretical inquiries into the epistemological status of documentarism, its theoretical, narrative, and theatrical devices, its predominant genres and links to other

modes of mass communication, and its political affiliations and implications. For readers already familiar with its subject matter, *Documentarism in Scandinavian Literature* offers an opportunity to revisit and recontextualize a crucial moment in their recent cultural past. For readers who have yet to be exposed to documentary works of fiction, the volume presents a timely theoretical, historical, and critical introduction to the key problematics and potentials of their novel field of interest. Whether viewed as part of the past or part of the present, documentarism remains an intellectual challenge, which this volume is aimed at addressing. *Documentarism in Scandinavian Literature* is edited by two Scandinavian scholars living abroad, and its essays are written by senior and junior scholars and critics from Scandinavia, Europe, and America; an interview with Per Olov Enquist and an autobio-graphical piece by Sven Lindqvist complete the volume.

In order to understand architecture in all its cultural complexity it is necessary to grasp such basic concepts as representation, form and space. The aim of this book is to provide teachers, students, practising architects and general readers with a set of ideas that will enrich their conversation, their writing, and above all their thinking about architecture. The book is divided into eight chapters,

each covering a particular aspect of architecture, and introduces difficult concepts gradually. Architectural theorists and philosophers are mentioned in passing and their works are listed in the bibliography, but they are not the subject of the book. Architecture, rather than philosophy, is at the centre of the picture. The aim is to enable the reader to understand architecture in all its aspects, rather than to learn the names of particular theorists. Written in a conversational style, *Thinking about Architecture* is an invaluable and accessible standard introduction to architectural theory.
