This year's report presents evidence that the absolute number of people who suffer from hunger continues to slowly increase. The report also highlights that food insecurity is more than just hunger. For the first time, the report provides evidence that many people in the world, even if not hungry, experience moderate food insecurity as they face uncertainties about their ability to obtain food and are forced to compromise on the quality and/or quantity of the food they consume. This phenomenon is observed globally, not only in low- and middle-income countries but also in high income countries. The report also shows that the world is not on track to meet global nutrition targets, including those on low birthweight and on reducing stunting among

children under five years. Moreover, overweight and obesity continue to increase in all regions, particularly among school-age children and adults. The report stresses that no region is exempt from the epidemic of overweight and obesity, underscoring the necessity of multifaceted, multisectoral approaches to halt and reverse these worrying trends. In light of the fragile state of the world economy, the report presents new evidence confirming that hunger has been on the rise for many countries where the economy has slowed down or contracted. Unpacking the links between economic slowdowns and downturns and food insecurity and malnutrition, the report contends that the effects of the former on the latter can only be offset by addressing the root causes of hunger and malnutrition: poverty, inequality and marginalization.

Michael in Foreverland is a story about Michael Jackson, an outstanding artist and humanitarian in our society, who took videos to a greater height through his creativity and imagination. This book is about Michael's world and seeing the world through his eyes. It is for anyone who truly admired and appreciated Michael for all that he stood for, his music, his love of beautiful scenery, of butterflies, children and all of the animals that we share this fragile planet with. His admiration for the late Walt Disney's empire Disney World. For Michael's world was much the same. As in the song: "Bless the Beast and the Children," they had a voice through Michael who sang and spoke for them through his words of music and his videos "Heal the World" and "The Earth Song." This is a book where history and fantasy come together for those who truly believe.
