Dark Currents by Lindsay Buroker (Emperor's Edge #2)

"Dark Currents" is the second book in the Emperor's Edge series by Lindsay Buroker. I felt that the first novel read very much the opening movie-length episode of a steampunk television series which I had affectionately nicknamed The "A-Team of Steam". Nothing has changed with the second episode.

It's been three months since former enforcer Amaranthe Lokdon and the notorious assassin Sicarius thwarted kidnapers and saved the emperor's life. The problem? Nobody knows they were responsible for this good deed. Worse, they're being blamed for the entire scheme. With enforcers and bounty hunters stalking them, and the emperor nursing a personal hatred for Sicarius, it's going to be hard to earn exoneration. When Amaranthe's team discovers mutilated bodies in the city aqueducts and a mysterious illness incapacitates thousands of citizens, she and Sicarius see an opportunity to solve the mystery and prove their loyalty. But they'll have to defeat vengeful shamans, man-eating predators, and deadly mechanical constructs, all while dodging imperial soldiers who would rather kill them than accept their help. Nobody said exoneration would be easy. A heroic fantasy novel in an age of steam. 105,000 words.

"Imperial law enforcer Amaranthe Lokdon is good at her job: she can deter thieves and pacify thugs, if not with a blade, then by toppling an eight-foot pile of coffee canisters onto their heads. But when ravaged bodies show up on the waterfront, an arson covers up human sacrifices, and a powerful business coalition plots to kill the emperor, she feels a tad overwhelmed. Worse, Sicarius, the empire's most notorious assassin, is in town. He's tied in with the chaos somehow, but Amaranthe would be a fool to cross his path. Unfortunately, her superiors order her to hunt him down. Either they have an unprecedented belief in her skills... or someone wants her dead"--P. [4] of cover.

When you're an outlaw hoping for a pardon, and the emperor personally sends a note requesting that your team kidnap him, you make plans to comply... Even if it'll involve infiltrating a train full of soldiers, bodyguards, and spies loyal to a nefarious business coalition that has numerous reasons to hate you. Even if it means leaving the city right after you've uncovered a secret weapons shipment that might be meant to start a war. Even if it's a trap... Conspiracy is the fourth book in The Emperor's Edge high fantasy adventure series. Other books in the series: The Emperor's Edge, Book 1 Dark Currents, Book 2 Deadly Games, Book 3 Conspiracy, Book 4 Blood and Betrayal, Book 5 Forged in Blood I, Book 6 Forged in Blood II, Final Book

When you've been accused of kidnapping an emperor, and every enforcer in the city wants your head, it's hard to prove yourself an honorable person and even harder to earn an imperial pardon. That doesn't keep Amaranthe Lokdon and her team of outlaws from trying. When athletes start disappearing from the Imperial Games, they may finally have an opportunity to show the emperor that they're on his side. If she and her comrades can get to the bottom of such a public mystery, they're sure to get the credit. But plans go awry when Amaranthe's own men start plotting against each other, the new ally she'd hoped to acquire tries to turn her in, and her best fighter--and closest friend--disappears. Maybe getting involved wasn't such a good idea after all... Deadly Games is approximately 110,000 words. It is the third book in The Emperor's Edge series.

The last thing Maldynado Montichelu--former aristocrat and current ladies' man--ever wanted was to be left in charge. After all, the team just blew up a train, crashed a dirigible, and kidnapped the emperor. It's kind of an important time. But, with Amaranthe captured by the nefarious Forge coalition, and Sicarius off to find her, the team is lacking in leaders. Also, Sicarius has made it clear that Maldynado's life may be forfeit should anything happen to the emperor while he's gone. To make matters worse, Forge's cutthroats are after Sespian, and the young emperor believes Maldynado's loyalties are suspect. As if it's his fault that his older brother is working with the coalition to usurp the throne. If Maldynado can't figure out how to earn the emperor's trust quickly, Sespian will go off to confront their powerful enemies on his own. Meanwhile, Amaranthe must find a way to escape from the coalition's newest ally, Master Interrogator Pike, a man who plans to pull all of the secrets from her head, one way or another... Blood and Betrayal is the fifth book in The Emperor's Edge fantasy series. Other books in the series: The Emperor's Edge, Book 1 Dark Currents, Book 2 Deadly Games, Book 3 Conspiracy, Book 4 Blood and Betrayal, Book 5 Forged in Blood I, Book 6 Forged in Blood II, Final Book

Recently appointed Crown Agents Jev and Zenia must prove that they're worthy of their new jobs and young King Targyon's trust. Their mission? To research the strange "disease of the blood" that killed Targyon's three cousins and left him unexpectedly ruling an entire kingdom at barely twenty years of age. There are just a few problems. If someone was responsible for creating that disease, that person could still be in the city, forcing Zenia and Jev to deal with someone very smart and very dangerous. Meanwhile, since Targyon has the same blood flowing through his veins that his cousins had, he's at risk of becoming the next victim. And as it so happens, Jev shares some of that blood too. Might he become a target before Targyon? When Jev and Zenia signed on for this job, they didn't realize how deadly it might become.

McCall Richter finds criminals, con men, and deadbeats better than anyone else in the empire. She's proud of her success and that she owns her own spaceship, especially since she struggles to understand human motivations, can't tell when people are lying to her, and is horrible at recognizing faces. Being autistic in the empire is frowned upon—and there's a handy normalization surgery to correct it—but she's managed to prove her worth and avoid irking the tyrannical regime. Except for one thing. Two years ago, she liberated the android, Scipio, from an imperial research facility where he was treated worse than a slave. He's become her business partner and best friend, but if the empire finds out she has him, a "normalization" surgery will be the least of her worries. When her ship is confiscated by a cyborg law enforcer needing to transport prisoners, McCall knows she and Scipio are in trouble. Worse, the enforcer's pilot is a former bounty hunter and business competitor she beat to the prize many times in the past. Soon, he's snooping all over her ship and questioning her about her past. And there's something strange about him. He knows far more about what she's thinking than any human should. It'll only be a matter of time before he discovers her secret. And then what?

After ten years at war, Jev Dharrow looks forward to hanging up his sword, relaxing with a cool mug of ale, and forgetting that the love of his life married another man while he was gone. But when his ship sails into port, a beautiful woman wearing the garb of an inquisitor from one of the religious orders waits to arrest him. His crime? He's accused of stealing an ancient artifact with the power to start another war. Jev would gladly hand over the artifact to stop more suffering, but he has no idea where it is or even what it looks like. The inquisitor woman definitely has the wrong person. Inquisitor Zenia Cham grew up with nothing, but she has distinguished herself as one of the most capable law enforcers in the city, and she's next in line to become archmage of the temple. All she has to do is find the Eye of Truth, and her superiors are certain that Jev has it. He tries to charm her with his twinkling eyes and easy smile, but she's not letting any man get between her and her dreams. Especially not a thief. If Jev can't convince Zenia they're on the same side, find the artifact, and clear his name, his homecoming will turn into a jail sentence. Or worse.
