DESCRIPTION OF THE ORIGINAL BOOK: When Raymond A. Moody published his book *Life after Life* in 1975, it caused a real commotion among doctors, scientists and people, in general. The subject of what happens after death is decreed in this world, has been and continues to be a challenge tinged with touches of suppositions, which have kept it at the peak of human curiosity. In this book the author exposes a series of stories of people who overcame clinical death, and who, during that time when they were clinically "dead" by doctors, had out of body experiences. From the description of some phases that constitute the path between life and death, visions are presented, the tunnel of light, arriving to "the other side", the revision of one's own life. It is a book that is worth reading to help unravel this
