Your eBookPLUS resources include: HTML links to other useful support material on the internet Word documents designed for easy customisation and editing interactive activities and a wealth of ICT resources

After exploring the relationship between patterns of classification and phylogeny, this text concludes that if the hierarchical pattern of classification is a real phenomenon, then the taxonomic statements of biology are unique.

In this edited volume, global experts in ecology and evolutionary biology explore how theories in ecology elucidate the processes of invasion, while also examining how specific invasions inform ecological theory. This reciprocal benefit is highlighted in a number of scales of organization: population, community and biogeographic. The text describes example invaders in all major groups of organisms and from a number of regions around the globe.

Shrink-wrapped, looseleaf textbook for student binder + eBookPLUS Available for select titles in 2011, Jacaranda FlexiSavers provide students with a flexible, cost-saving alternative to the student textbook on your booklist.
