Focus on Personal Finance is a brief, 14-chapter book, covering the critical topics in Personal Finance courses. This 4-color, paperback text is designed and written to appeal to a range of ages, life situations, and levels of financial literacy. A unique aspect of this text is its active approach. This text will not only get your students thinking about their current situation and financial goals, but also to put these in writing to use as a guide and revise over the course of their lives. The more a student involves themselves in the assessments, exercises and worksheets provided, the more they will discover about their current habits and how to improve them for greater financial freedom. Students have many different financial goals, but none are more important than having a basic understanding of financial issues and peace of mind with regard to their decisions. The ultimate goal of Focus on Personal Finance is to get students to this point as a first step to achieving the many financial goals they have set for themselves.

Encourage students to become financially responsible with Personal Finance for grades 5 and up! This 80-page workbook features eight chapters of valuable financial information. It includes reproducibles and activities that focus on setting income goals, different types of bank accounts, insurance, investments, and taxes. For students, learning personal finance is an investment in the future!

This fourth revised and updated edition gives a practical overview of contemporary finance from a New Zealand perspective. It helps students understand: how the financial system and the institutions within it operate; how and why financial decisions are made; the tools, techniques and concepts used in finance, and how they are applied to the major sectors of finance; and how individuals plan their short- and long-term financial activities; how business organisations manage and finance their short- and long-term financial activities. Broad in scope, Fundamentals of Finance explains the important financial decisions made by businesses and individuals, and how these decisions are influenced by the financial environment in which we live and work. It provides an introduction to finance that assists students to make their own financial decisions. Helpful features include: examples, self-test questions (with solutions), learning objectives, a glossary of terms and useful formulae.

Personal Finance for the Real World teaches the basics of personal finance by involving the reader in various financial exercises and eventually constructing a personal financial plan. Users not only track their spending for a month, but also set personal financial goals and incorporate them into a realistic budget. This book also teaches time-value of money calculations, which enable readers to calculate their necessary monthly savings in order to reach targeted investment goals. This book conducts a thorough review of credit, complete with strategies to pay off credit card and other forms of debt. It features discussions on student debt as well, with particular attention to appropriate pay-down strategies and the financial payoffs to different academic majors. Personal Finance for the Real World immerses users in real and purposeful financial activities, while teaching personal finance vocabulary and encouraging readers to take seriously the financial side of their lives.

This training circular is designed for soldiers in the active component (AC) and the reserve component (RC) (which includes the Army National Guard (ARNG) and the United States Army Reserve (USAR). It explains the Army's pay system and answers questions concerning basic financial matters. At the end of each chapter there are practical exercises covering the material in the chapter. Chapter 8 contains answers to all of the practical exercises. This training circular will help soldiers understand the military pay and travel systems, spending and saving, investments, and, most importantly, assist soldiers in preparing for financial readiness--in peacetime and during any type of deployment. Remember that this is a guide to be used by all soldiers. Chapter 1 explains the monthly pay and allowances soldiers are entitled to as well as the monthly deductions from their pay. These deductions include taxes as well as voluntary deductions such as allotments and charitable donations. This chapter gives an overview to all soldiers on how the Army pay system works, what entitlements soldiers receive, how soldiers receive their pay, and programs offered for retirement. Chapter 2 outlines the entitlements for Active Component (AC) and Active Guard/Reserve (AGR) soldiers on active duty and answers specific questions about individual Leave and Earning Statements (LESs), the mid-month Net Pay Advice (NPA), and additional entitlements for deployed soldiers. Chapter 3 outlines the entitlements for RC soldiers and answers questions about entitlements, individual LESs, the mid-month NPA, and mobilization allowances. Chapter 4 explains travel pay, how to file travel claims and shows block by block how to complete a travel voucher. Chapter 5, which is probably the most important chapter of this circular, tells soldiers and their families how to prepare for deployment. Chapter 6 explains credit and banking services as well as offers practical advice on establishing and utilizing credit and various banking services. Chapter 7 covers budgeting techniques and general information on investments. The final chapter, chapter 8, contains the answers to the practical exercises, which are located at the end of each chapter. Appendix A is for unit commanders. It outlines differences in the AC and RC pay systems and provides an excellent training tool for Commanders' use when introducing new soldiers to the Army pay system. This publication uses both narrative and question-and-answer formats to present information. Read each question as if you were asking it yourself. Review the answers and if you come across an answer you do not understand or if you have further questions, which are not answered in this circular, talk to your chain-of-command. If your leaders don't know the answer, they will assist you in getting the right answer. You are encouraged to read this entire publication and complete the practical exercises at the end of each chapter. After completing the exercises, keep this circular handy as a reference. The proponent for this publication is the U.S. Army Finance School.

Fulfilling the need for a UK-centred introductory personal finance text, this dedicated author team provide academic, professional and general readers with what they really need to know about personal finance. Personal Finance is an innovative text that builds confidence and competence in making personal financial decisions. Using a socio-economic approach to personal finance, it illuminates the many factors and relationships that help improve financial capability, including: \* Decisions on spending, borrowing, saving and investing are set within a broader context. \* Concepts such as income and expenditure, risk and return, and assets and liabilities are related to issues of home ownership, caring responsibilities and lifestyle changes. \* The impact of important economic events, such as the financial crises of recent years, on individuals and households is shown. \* Case studies are used to demonstrate practical relevance, while diagrams and activities help distil complex issues into digestible form. \*Keeping a text in this area up to date was always going to be a critical and monumental challenge. The editors have done a timely and impressive job.' Professor Peter Howells, Centre for Global Finance, UWE Bristol 'Personal Finance addresses a particular gap, and the overview is impressive.' Steve McKay, Bristol University (Personal Finance Research Centre) 'What distinguishes this book is that it focuses not only on 'what you need to know' about personal finance, but also on 'what you might be interested in knowing' about the socio-economic context in which financial decisions are made 0 it makes the text more useful for an academic course and certainly makes for interesting reading.' Jane King, Oxford Brookes University 'Personal Finance presents the subject of financial planning in an intellectually stimulating way which links theory to practice and is comprehensible to both the student and the layperson.' James Mallon, Napier University
