User Stories \u0026 Story  
Mapping Demystified by Jeff  
Patton **Story Mapping**  
Story mapping consists of

building a grid of user stories which are laid out under headings that represent the user's experience moving through your product.

## **An introduction to user story mapping - Manifesto**

Story Mapping is a better way to work with Agile User Stories. User Story Mapping is a dead simple idea. Talk about the user's journey through your product by building a simple model that tells your user's story as you do. It turns out this simple idea makes working with user stories in agile development a lot easier.

Story mapping is an effective inception tool to create a product backlog in a visually structured way. It helps in building a shared understanding, identify gaps in the backlog, see interdependencies, perform better relative sizing. Further, it can also help in slicing and release planning activities.

She asked the strangers to “map their Manhattan” and to mail the personalized maps back to her. Soon, her P.O. box was filled with a cartography of intimate narratives: past loves, lost homes, childhood memories, comical moments, and surprising confessions. A beautifully illustrated, PostSecret-style tribute to New York, *Mapping Manhattan* includes 75 maps from both anonymous mapmakers and notable New Yorkers, including Man on Wire aerialist Philippe Petit, New York Times wine critic Eric Asimov, Tony award-winning actor Harvey Fierstein, and many more.
